OVER-FACE FLOATING STRAINER

https://www.securhit.com/en/valve-fittings/411-245-crepine-flottante-sur-face.html#/259-modeles_crsf-maxi/260-raccords_crsf-avec_raccord_ar100

Floating strainer

Description

The Surf-face floating strainer allows you to draw water close to the surface of water bodies, lakes, ponds, rivers, etc.... and avoid sucking up impurities and debris near the bottom or between two waters.
The highly resistant roto-moulded polyethylene float repels floating objects.

Aluminium housing mounted on a shaft to compensate for the weight of the suction hoses.

Stainless steel strainer plate, Maxi strainer capacity 2700 litres/minute and Mini strainer capacity 1500 litres/minute.

Caractéristiques

- Dimensions Mini : 604 x 454 x 171 mm
- Poids Mini : 8 Kg
- Dimensions Maxi : 790 x 550 x 200 mm
