

FOMAX 7 FOAM GENERATOR

https://www.securhit.com/en/production-mousse/415-256-generateur-de-mousse-fomax-7.html#/273-modeles_gm22-sans_gaine_extraction/274-raccords_gm22-raccord_dsp_40 Fomax 7 foam generator

Description

The Fomax 7 generator is ideal for producing foam in large quantities, in enclosed or confined spaces and for misting.

It has a high-density polyethylene body with carrying handles, a maintenance-free bronze turbine, a bypass, a corrosion-resistant hydraulic circuit and a 2" male thread inlet/outlet.

Its maximum flow rate is 204 m³/min of foam at an expansion of 800 to 1200 at a supply pressure of 7 bar and a discharge height of 15 m.

It is supplied with a 30-metre polyethylene delivery tube and a user manual in French.

The Fomax 7 generator with extractor is ideal for producing foam in large quantities, in enclosed or confined spaces, for extracting smoke, including hot smoke, and for fogging.

It has a high-density polyethylene body with carrying handles, a maintenance-free bronze turbine, a bypass, a corrosion-resistant hydraulic circuit and a 2" male thread inlet/outlet.

Maximum output: 204 m³/min of foam at an expansion rate of 800 to 1200 at a supply pressure of 7 bar and a discharge height of 15 m.

Maximum extraction: 285 m³/mn.

It is also supplied with a spiral suction hose, a 30-metre polyethylene delivery hose and a user manual in French.

Caractéristiques

- Dimensions : 47 x 87 x 88 cm
- Weight : 49 Kg
- Warranty : 2 ans
