

FLOAT FOR STRAINERS

<https://www.securhit.com/en/valve-fittings/44-flotteur-pour-crepines.html>

Float for suction strainers

Description

This float is designed to be used with a suction strainer. With its chain equipped with a quick snap hook, it allows the suction strainer to be held a few centimetres below the surface, during suction, to avoid sucking up impurities deposited on the bottom of the water.

Features :

- Red polyethylene body
- Stainless steel chain, hook and carabiner.

Caractéristiques

- Colour : Rouge
- Body material : Polyéthylène
- Material : Inox
