200L Mobile Foam Unit with Monitor Lance 2000 L/min - Firefighting Equipment

### Description

The 200L Mobile Foam Unit with Monitor Lance 2000 L/min is a high-performance, portable solution for professional firefighting operations. Designed for fire departments, emergency response teams, and industrial sites, this unit delivers powerful foam projection, easy handling, and rapid deployment during critical fire situations.

#### Chassis and Mobility

- Single-axle towable chassis for easy maneuverability
- Four stabilizing legs for safe, stable operation
- High-visibility red RAL3000 paint for emergency recognition

#### Tank and Supply System

- 200L epoxy-coated foam tank, robust and durable
- Dual inlet supply system with SYM/DSP65 couplings for reliable connections

#### Monitor Lance and Flow

- Manual monitor lance with flow rate 2000 L/min at 7 bar, ideal for large-scale fires
- Fixed 3% foam injection for optimal firefighting performance

#### Storage and Accessories

- Two lateral compartments for hose storage
- Four DN70 hoses of 20 m included for rapid deployment

#### Dimensions and Weight

- Dimensions: 2370 x 1235 x 1255 mm
- Weight: 435 kg

## Applications

Perfect for firefighters, municipal fire services, and industrial emergency teams, this mobile foam unit ensures efficient foam coverage, rapid response, and easy transport, making it an essential tool for professional firefighting operations.

## Key Features:

- Supply: 2 x DN70
- Flow rate: 2000 L/min at 7 bar
- Tank capacity: 200 L
- Foam injection: 3%
- Weight: 435 kg
- Dimensions: 2370 x 1235 x 1255 mm

## Caractéristiques

- Power : 2 X DN70
- Dimensions : 2370 x 1235 x 1255 mm
- Weight : 435 kg
- Flow : 2000 L/MIN
- Capacity : 200L
