

PAS LITE SCBA WITHOUT MASK OR BOTTLE

<https://www.securhit.com/en/respiratory-protection/461-ari-pas-lite-sans-masque-ni-bouteille.html>

PAS lite self-contained breathing apparatus

Description

The PAS Lite self-contained breathing apparatus combines reliability, comfort and performance, as well as easy maintenance and durability.

With its lightweight, antistatic and impact-resistant space-frame, its lightweight buckles and flame-retardant rubber coated fabric, it offers chemical resistance and excellent grip.

The pressure gauge is protected by impact-resistant rubber, and the adjustment angles are wear-resistant and flame-retardant.

This firefighter SCBA is designed for use with single steel or carbon composite cylinder rated at 4 to 9 litres, 200 and 300 bar.
