PAS Lite SCBA □ Self-Contained Breathing Apparatus without Mask or Cylinder

### Description

The PAS Lite self-contained breathing apparatus (SCBA) combines reliability, comfort, and performance, while offering easy maintenance and long-lasting durability.

Its lightweight, antistatic, and impact-resistant frame, combined with lightweight buckles and flame-retardant rubberized fabric, ensures chemical resistance and a secure grip. The pressure gauge is protected by impact-resistant rubber, and the adjustable straps are wear-resistant and flame-retardant, providing safety and optimal performance in the field.

This PAS Lite SCBA is designed for use with steel or carbon composite cylinders ranging from 4 to 9 liters at 200□300 bar, offering flexibility and compatibility with different cylinder types.

#### Technical Specifications

- Dimensions: 590 x 290 x 160 mm
- Weight: 2.7 kg
- Frame: Lightweight, antistatic, impact-resistant
- Fabric: Flame-retardant rubberized
- Pressure gauge: Impact-resistant protection
- Straps: Adjustable, wear-resistant, flame-retardant
- Cylinder compatibility: Steel or carbon composite, 4□9 L, 200□300 bar
- Use: SCBA for firefighting and hazardous atmosphere operations

#### Benefits

- Lightweight and comfortable for extended operations
- Flame and chemical resistant materials
- Protected pressure gauge and durable straps for safety
- Compatible with multiple cylinder types

- Easy maintenance and long-lasting durability
