

PSS 3000 SCBA WITHOUT MASK OR BOTTLE

<https://www.securhit.com/en/protection-respiratoire/462-ari-pss-3000-sans-masque-ni-bouteille.html> PSS 3000 self-contained breathing apparatus

Description

The high-performance breathing apparatus for firefighters, combining comfort with high pneumatic performance.

Ultra-light but robust and easy to use.

Its lightweight space frame is antistatic and impact-resistant, as is its rubber gauge cover.

The rubberised fabric holds the cylinder securely in place.

Its harness resists tearing and abrasion.

Its straps are flame-retardant and wear-resistant, and the buckles are lightweight and flame-retardant.

The padding distributes the load evenly.

The two-stage pneumatic system features a positive-pressure demand valve activated on the first breath.

CE marked to EN137:2006 Type II and MED/SOLAS.

Caractéristiques

- Dimensions : 590 x 290 x 160 mm
- Weight : 2.7 kg
