PETZL MGO OPEN connector

https://www.securhit.com/en/carabiners-and-connectors/474-mousqueton-a-grande-ouverture-mgo-60-open.html

Directional connector with automatic locking, large opening and openable connection point to adapt to different types of lanyards.

Description

A double-action connector for optimal connection to metal elements? Introducing PETZL's MGO OPEN connector, designed with a large opening and automatic locking. It's ideal for connecting to metal structures, cables or large-diameter rods. The openable connection point, ideal for long-axis work, is used to immediately attach the PTZL MGO OPEN connector to the end of a double lanyard. These include ABSORBICA-I, ABSORBICA-Y, JANE, PROGRESS and PROGRESS ADJUST. It is also suitable for work positioning lanyards (e.g. GRILLON). Its ergonomic release handle makes it easy to use.

Caractéristiques
