PETZL VERTIGO carabiner specially designed for progression lanyards, with KEYLOCK system and automatic WIRE-LOCK or TWIST-LOCK locking as required.

Description

Petzl's VERTIGO carabiner is particularly well suited to progression lanyards. This practical carabiner simplifies handling when going through splits. It also offers other advantages for working at height and climbing.

- Ergonomic shape for easy handling
- A choice of two automatic locking systems: TWIST-LOCK with rotation release or WIRE-LOCK (particularly suitable for lanyard ends).
- Large opening for connections made in a second
- Keylock system to prevent accidental snagging of the carabiner

Weight of carabiner with 25 mm TWIST-LOCK opening: 100 grams
Weight of carabiner with 24 mm WIRE-LOCK opening: 95 grams
