PETZL OXAN CARABINER

https://www.securhit.com/en/mousquetons-et-connecteurs/478-498-mousqueton-petzl-oxan.html#/460-modele_m72a-screw_lock_or High-strength carabiner with automatic TRIACT-LOCK or manual SCREW-LOCK system, specially designed for use in harsh environments.

Description

In harsh environments, PETZL's OXAN carabiner combines high strength with practicality. Perfect for anchoring or attaching to metal structures.

- Sturdy, shock-resistant steel construction
- Oval, symmetrical shape for easy carabiner attachment
- Can be combined with the CAPTIV barrette
- Interior design designed to reduce the risk of stable points and optimize carabiner rotation
- Keylock system to prevent accidental snagging of the carabiner
- H-shaped profile combines strength and lightness with abrasion-proof marking
- Two types of opening/closing: TRIACT-LOCK (automatic triple-action opening lock) or SCREW-LOCK (manual screw lock with red visual indicator if the carabiner is not properly closed).

The carabiner is available in two versions: European and international.
Gold or black color.

Caractéristiques

- Material : Acier

Securhit Group - 360 rue de la Curiaz - 73290 La Motte-Servolex - France
