

PETZL ASCENSION ROPE CLAMP

https://www.securhit.com/en/pulleys-and-ascenders/497-565-bloqueur-petzl-ascension.html#/527-modele_b17-gauche_noir_jaune

Ergonomic, comfortable PETZL ASCENSION rope clamp for rope ascents. Ideal for mountaineers, cavers and specialists working at height or in difficult-to-reach areas.

Description

Working at height calls for highly reliable equipment like the ASCENSION rope clamp designed by PETZL. Rope climbers, mountaineers and speleologists appreciate this equipment for its many advantages when ascending ropes.

- Easy-to-hold handle, even when wearing thick gloves
- Ergonomic, comfortable overmolded handle for a pleasant grip
- Optimized power for two-handed pulling thanks to ergonomic top section
- Cleat incorporated into the body of the rope clamp to prevent snagging
- Optimum operation in all situations and weather conditions, thanks to the pinned trigger with drain slot
- Easy connection of carabiners to PROGRESS lanyards or FOOTAPE/FOOTCORD pedals
- Top hole for carabiner attachment

The PETZL ASCENSION rope clamp is available for the right or left hand, in black/yellow or black.
