

6-POINT CRAMPONS CRAB

<https://www.securhit.com/en/neige-et-avalanche/499-crampons-crab-6-pointes.html> 6-point PETZL crampons, adaptable to all boots, with fastening straps. Excellent grip on hard or slippery ground for progress on slopes, snowy or icy slopes.

Description

Whether you're hiking on snow or slippery terrain, you need excellent grip to progress safely. PETZL CRAB 6 crampons fasten under the midfoot and on the heel to guarantee optimum grip.

- Adaptable to all shoe sizes
- Double lateral adjustment
- Easy to use with strap closure

For your safety, here are the points to check before any outing:

- General condition of crampons
- Sharpness of spikes
- Condition of straps
- Tightness of adjusting nuts
- Absence of cracks (particularly on the support and spikes)
- Absence of deformations, cracks, marks, wear, corrosion, etc.

Once installed, the studs must not move. If they do, you'll need to adjust the settings or change shoes. With regard to maintenance, you should clean and dry the studs after each use.
