PETZL VIZEN MESH VISOR

https://www.securhit.com/en/helmets-and-accessories/502-visiere-petzl-vizen-mesh.html

Full-face PETZL VIZEN MESH visor, ideal for pruning work. Easy installation on VERTEX and STRATO helmets with the EASYCLIP system.

Description

Pruning work involves splashing materials. PETZL's VIZEN MESH visor provides excellent visibility and face protection for outdoor work.

Effective protection for the whole face:

- A visor that covers the eyes and the rest of the face
- Good ventilation and excellent visibility, whatever the weather conditions
- Possibility of wearing prescription or safety glasses

Compatible with VERTEX helmets (minimum 2019 models) and STRATO helmets:

- EASYCLIP fastening system makes installation a snap
- The visor swivels to alternate between work and storage positions

Light reduction estimated at 30%.
