PETZL CROLL L belay device for rope ascents, with pinch opening system. L version to create a wide rope passage and provide a smooth ascent.

Description

For rope ascents, safe and effective equipment is a must. PETZL's CROLL L version belay device provides all the security you need. The rope clamp has been designed for ease of use, while ensuring user safety.

- Simple opening by pinching the cleat, integrated into the body of the rope clamp to prevent snagging.
- A tough, practical trigger, with pins and an escape slot for use in all conditions.
- A top hole designed to secure SECUR shoulder straps and keep the blocker in position, even over long periods of time
- A twisted lower hole, ideal for keeping the equipment in a flat position
- An L version with wide rope passage for excellent fluidity on ascent

The PETZL CROLL rope clamp must be used with an ASCENSION rope clamp for rope ascents.
