

PETZL RING

<https://www.securhit.com/en/harnesses-and-belts/515-576-anneau-petzl-ring.html#/538-taillec046-s>

RING connection ring from PETZL, for multiple tie-downs or direct installation on the SEQUOIA and SEQUOIA SRT harness attachment bridge.

Description

For vertical work and activities, PETZL's RING connection ring combines high strength with great practicality. It is especially appreciated for improving the lateral mobility of pruners. The RING is particularly suitable for multiple tie-downs or direct installation on the SEQUOIA and SEQUOIA SRT harness attachment bridges.

The ring's circular shape allows favorable operation in all directions and guarantees a firm stop on openable rings. This equipment is used in a fall arrest system with an energy absorber.

Available in two sizes:

- Size S (inner diameter 28 mm)
- Size L (inside diameter 46 mm)

3-year warranty against defects in materials and workmanship.

Caractéristiques

- Weight : 40 g (taille S), 70 g (taille L)
- Material : Aluminium
- Certifications : CE, UKCA
