PETZL SEQUOIA SRT harness for single rope climbing techniques. An essential piece of equipment for the comfort and safety of pruners.

### Description

All climbing pruners carry out tree care and pruning operations. These operations, which take place at height, require high-quality, reliable equipment. The watchwords: safety and comfort for daily work. PETZL's SEQUOIA SRT sit harness is specially designed for single rope climbing techniques.

This equipment is adapted to working at height:

- A ventral attachment point for a ZIGZAG or ZIGZAG PLUS mechanical Prusik with CHICANE and KNEE ASCENT accessories.
- A buckle located behind the harness, ideal for adding a CROLL ventral blocker with SECUR shoulder straps

All-day comfort:

- Excellent support thanks to the belt and semi-rigid thigh straps
- Quilted foam on the waistband and thigh straps for easy interventions
- Connection of a ZILLON or MICROFLIP lanyard and easy-to-install attachment bridges with accessories thanks to two openable attachment points.
- An attachment bridge offering excellent lateral mobility
- Mobile side attachment points
- Even more comfortable walking with the ventral attachment point (and textile belay loop)

Easy to adjust:

- FAST buckle on waistband for easy opening and closing
- Thigh loops with FAST LT PLUS buckles and release mechanism to prevent accidental opening
- DOUBLEBACK buckles with locking mechanism to perfectly adapt the height of the attachment bridge

Convenient elements for adding accessories:

- Nine pre-formed equipment holders with protective sheaths
- Five loops for CARITOOL tool holders
- Two carabiner loops for chainsaw or handsaw holders
- An elastic band for attaching a first-aid kit
- Possibility of connecting a harness and shoulder straps

Waist: 65-80 cm (size 0), 70-93 cm (size 1), 83-120 cm (size 2)

Thigh circumference: 44-59 cm (size 0), 47-62 cm (size 1), 50-65 cm (size 2)

Weight: 1580 g (size 0), 1630 g (size 1), 1700 g (size 2)

3-year warranty.
