

PETZL VOLT EUR HARNESS

https://www.securhit.com/en/harnesses-and-belts/522-598-harnais-petzl-volt-eur.html#/560-taille_c072-taille_0

PETZL VOLT harness for fall arrest and work positioning, designed with an attachment point for vertical progression on rails or cables. Comfortable equipment with excellent support.

Description

Vertical progression on rails or cables is often regulated by strict safety standards to ensure proper operation and user protection. PETZL's VOLT EUR harness is one of the essential pieces of equipment for ensuring safe missions.

Simple installation:

- Belt with FAST LT PLUS buckle opens and closes in a jiffy.
- FAST LT buckles around the thighs for easy donning with feet on the ground, without losing adjustment
- Belt and shoulder straps with DOUBLEBACK self-locking buckles
- Adjustable thigh padding for added comfort

Uncompromising comfort:

- Lightweight, airy waistband and thighband design
- Foam straps away from the neck to help distribute weight from the waistband to the shoulders
- A LADDER CLIMB ventral attachment point that can be adapted for different activities (support, progression, suspension...)
- Side loops for installation of a harness

The European version of the PETZL VOLT harness is also very easy to use. The side attachment points can be folded down when not in use, and the MGO connectors can be stored in a specially designed device. Equipment holders, a TOOLBAG tool pouch and loops for CARITool tool holders complete this all-terrain harness.

Waist circumference: 65-80 cm (size 0), 70-93 cm (size 1), 83-120 cm (size 2)
Thigh circumference: 44-59 cm (size 0), 47-62 cm (size 1), 50-65 cm (size 2)
Stature: 160-180 cm (size 0), 165-185 cm (size 1), 175-200 cm (size 2)
Weight: 2100 g (size 0), 2150 g (size 1), 2230 g (size 2)

3-year warranty.
