NEWTON HI-VIZ fluorescent jacket from PETZL for high visibility day and night. Personal protective equipment compatible with NEWTON, NEWTON FAST and NEWTON EASYFIT harnesses.

Description

Day or night, it's essential to be visible on construction sites. The NEWTON HI-VIZ jacket from PETZL offers construction and civil engineering professionals a high level of safety and visibility, even in the dark. Whether on a construction site, an industrial site or on the road, the jacket makes it easy to see a person from a distance.

The jacket is easy to put on and offers long-term visibility. Between comfort and practicality, this safety device offers many advantages for outdoor work:

- Easy access to the FAST LT PLUS automatic sternal buckle, sternal and dorsal attachment points and NEWTON harness connector holder, once the vest is on.
- Back zipper ventilation
- Two zippered pockets for small tools or personal items

The PETZL HI-VIZ jacket, available in yellow and orange, is machine washable at 30°.

This equipment is compatible with the NEWTON harness range from 2021.

Note: access to the harness adjustment buckles is under the jacket.
