PETZL CONNEXION VARIO adjustable mooring strap with two forged steel attachment points. Ideal for different mooring configurations.

Description

PETZL's CONNEXION VARIO adjustable mooring sling offers several advantages for setting up a mooring.

- The possibility of having several configurations for installing a mooring: on an anchor, around a mooring structure or as a lark's head on a mooring structure.
- Two attachment points of various sizes
- Adjustment of the strap length required for mooring with the adjustment buckle
- Easy storage of remaining strap length with built-in Velcro

Reliable design:

- Fully abrasion-resistant webbing
- Forged steel attachment points, ultra-strong material

The mooring strap is available in two lengths: 30 to 200 cm and 200 to 400 cm. A label identifies the strap length at a glance.
