# PETZL PULSE REMOVABLE MOORING

*https://www.securhit.com/en/anchors-and-tie-back-systems/553-680-amarrage-amovible-petzl-pulse.html#/634-modele_g037-8_mm*

PETZL PULSE 8mm or 12mm temporary mooring with aluminum plate and steel pin. The 8mm device is ideal for suspension and caving equipment.

## Description

Mooring is any system that connects the climber or the rope to the wall. To do this, you need safe, robust devices. PETZL's AMOVIBLE PULSE rigging system meets all the requirements for safe outings.

Easy to install:

- Installation is a breeze by simply activating the release plunger.
- Easy to remove: simply press the release plunger and pull out the insert.

Easy to use:

- A locking knob for extended use of the mooring system
- Excellent grip thanks to serrated knob
- Connector held parallel to the wall
- A removable and replaceable plate

Easy carabiner attachment for the PULSE 12 mm model:

- A connection hole designed to make clipping the carabiner easier
- A hole for installing two carabiners at the same time

Weight (8 mm): 60 g
Weight (12 mm): 140 g
