

## PETZL KNEE ASCENT CLIP PEDAL

<https://www.securhit.com/en/pulleys-and-ascenders/563-pedale-knee-ascent-clip-petzl.html>

PETZL KNEE ASCENT CLIP pedal with shoe clip for easy climbing on single ropes when pruning. Adjustable to suit all body shapes.

### Description

Pruning is one of those jobs that requires reliable accessories to enhance safety and make difficult interventions safer. PETZL's KNEE ASCENT CLIP pedal is ideal for simplifying single rope climbing during pruning operations.

Easier climbing on single ropes:

- A top sling connected to the mechanical Prusik to efficiently link the ZIGZAG or ZIGZAG PLUS and CHICANE assembly.
- A CROLL L rope clamp included in the mechanism to make climbing more convenient (to be completed with a PANTIN foot clamp)
- Dyneema bottom strap with foot loop for better foot hold

Installation in no time at all:

- Carabiners and adjustment buckles for quick installation
- TOOLBAG 1.5 tool pouch to keep your equipment close at hand at all times
- An opening cleat to simplify installation of the CROLL L clamp

Long-lasting equipment thanks to the possibility of changing the mechanism's parts.  
Rope diameter: between 8 and 13 mm.

### Caractéristiques

- Weight : 285 g

- Materials : aluminium, acier, polyamide, polyester
- Compatibilité corde : corde semi-statique (EN 1891 type A)
