PETZL DUO RL LAMP

https://www.securhit.com/en/headlamps/566-lampe-frontale-petzl-duo-rl.html

Rugged, waterproof PETZL DUO RL 2800 lumen lamp, with survival mode set for 72 hours of light. Powerful, intelligent equipment for any situation.

Description

Powerful lighting is crucial in certain situations. The PETZL DUO RL lamp, with 2800 lumens, combines visual comfort and lighting power.

Powerful, versatile lighting:

- Excellent light output (2800 lumens)
- REACTIVE LIGHTING® mode for greater autonomy, visual comfort and less handling
- REACTIVE LIGHTING® or STANDARD LIGHTING® lighting mode
- Five lighting levels
- Survival mode configured for reduced lighting for up to 72 hours

High resistance:

- Waterproof to a depth of 1 meter for 30 minutes, or 3 meters for up to 10 minutes, for caving in siphons.
- Extremely sturdy, thanks to the aluminum front block

Uncompromising reliability:

- Rotary knob for easy handling, even when wearing gloves
- Automatic locking to prevent accidental switching on
- PRO ADAPT self-adhesive plates for adapting to several helmets
- Easy-to-remove headband for machine washing
- 3200 mAh Lithium-Ion battery rechargeable in 4 hours via 110/240 V rapid charger (included)

- A 4-level gauge for battery level monitoring

Multi-beam lighting: low-intensity wide-beam, mixed-beam, fast-moving beam or highly focused beam, depending on activities in the field.

Waterproof to IP67
Supplied with rechargeable Lithium-Ion R2 battery and 110/240 V charger, EUR/US compatible.

Caractéristiques

- Weight : 390 g
- Charging time : 4 heures
- Certification : CE
