Sturdy, waterproof PETZL ARIA LAMP, with several lighting levels, for maintenance work or nature observation. Output 350, 450 or 650 lumens depending on model.

Description

Need an accessory to help you see clearly during maintenance work or in natural environments? The PETZL ARIA headlamp is available in several models to suit different outdoor activities when it's dark. Whether you're a fisherman, maintenance technician or craftsman, this headlamp offers a number of advantages.

- A wide, even beam
- Perfect water and dust resistance
- Lightweight
- A single button for selecting light intensity
- Three white light levels: MAX BURN TIME (maximum autonomy), STANDARD (excellent power/autonomy balance) and MAX POWER (maximum power)
- Battery level indicator light
- Simple orientation of the lamp with the base plate
- Removable headband for machine washing
- LOCK system to prevent accidental switching on
- Can be mounted on helmets and bicycles

For ARIA RGB models:

- A beam with 3 colors as required: red, green, blue
- Fixed or flashing light
- Single button for light level and color

Models run on AAA/LR03 batteries or the rechargeable CORE battery (supplied with ARIA 2R and ARIA 1R models).

Water-resistance: IP67

Output: 350 lumens (ARIA 1, ARIA 1 RGB models), 450 lumens (ARIA 2, ARIA 2 RGB and ARIA 1R models) or 600 lumens (ARIA 2R model), ANSI/PLATO FL 1

Weight: approx. 100 grams
