PETZL PAW RIGGING MULTIPLIER

https://www.securhit.com/en/anchors-and-tie-back-systems/570-698-multiplicateur-amarrage-petzl-paw.html#/652-modele_g063-s_jaune

PETZL PAW rigging multiplier for organizing a workstation and creating a multiple rigging system. Compatible with rope or webbing for direct connection.

Description

Do you want to build a multiple mooring system with top-quality equipment? PETZL's PAW multiple roping system is the essential element for working at height.

- 19 mm holes, large enough to accommodate most carabiners
- Direct connection possible thanks to holes compatible with the passage of ropes or webbing
- Up to three carabiners can be attached to the main connection holes
- Odd number of connection holes for a well-balanced system
- Durability thanks to forged aluminum (corrosion-resistant, strong and lightweight)
- A recessed shape at the heart of the multiplier for longer marker life
- Two extra large holes on L-size models to ensure compatibility with CONNEXION FIXE and CONNEXION VARIO mooring straps

Available in three sizes and two colors (yellow or black).

Caractéristiques

- Material : Aluminium
- Warranty : 3 ans
- Certifications : CE, NFPA 2500 General Use, UKCA
