PETZL JAG RESCUE reversible rescue kit with JAG SYSTEM reeving kit and I'D EVAC descender. Equipment designed to quickly unhook and evacuate a victim downwards.

Description

Mountain activities require great care and adapted equipment. PETZL's JAG RESCUE reversible rescue kit provides all the necessary solutions when it comes to evacuating a victim.

- A JAG SYSTEM reeving kit with a 4:1 gear ratio and excellent sheave efficiency (effort divided by 4) for easy reeving of the victim.
- An I'D EVAC descender with a specially designed handle for effortless lowering of a victim, with anti-panic function.
- A JAG SYSTEM with a flexible sheath to prevent potential entanglement
- Controlled descent with the rope already pre-installed in the closed brake incorporated in the descender
- Easy transport of the kit with the BUCKET bag

Ready-to-use kit with three rope lengths available: 30, 60 or 120 meters.

Contents of the rescue kit :

- JAG SYSTEM reeving kit
- RING OPEN ring
- I'D EVAC descender
- AXIS 11 mm rope with two sewn endings
- CONNEXION FIXE 150 cm lashing strap
- BUCKET bag 15 liters for the 30-meter version, 30 liters for the 60-meter version and 45 liters for the 120-meter version
