PETZL PROGRESS ADJUST-I single adjustable progression lanyard for permanent connection in all types of progression, in combination with another lanyard.

Description

Whether you're ascending a rope or moving along a handrail, safety is paramount in all types of progression. PETZL's single-adjustable PROGRESS ADJUST-I progression lanyard ensures your safety in all types of progression.

- A lanyard for connection to an ASCENSION rope clamp and a PROGRESS ADJUST-I progression lanyard for adapting the lanyard's length when passing through splits (ascending on a rope).
- Lanyards of similar lengths for easy progression (moving on handrails)
- ADJUST locking device placed at the anchor or at the ventral attachment point of the harness (reversibility)
- Easy-to-adjust length thanks to ergonomic locking device
- A dynamic rope lanyard
- The ability to attach the lanyard and rope clamp to the connector together (OK, Am'D, Bm'D and OXAN) thanks to the CAPTIV ADJUST retaining bar
- The ability to use the VERTIGO connector, together with the TANGA accessory, when the rope clamp is on the anchor.
- A STUART device to maintain the connector in the correct position when the blocker is placed on the harness's ventral attachment point
- Compatible with the openable ventral attachment point on ASTRO harnesses.

Available in 4 sizes: 1 m, 2 m, 3 m or 5 m.
3-year warranty.
