

180 N SOLAS INFLATABLE LIFEJACKET

<https://www.securhit.com/en/life-jackets/585-gilet-de-sauvetage-gonflable-180-n-solas.html>

inflatbale lifejacket with harness auto red

Description

SOLAS lifejackets are designed for professional use on commercial vessels, fishing boats, wind farms, oil rigs and offshore platforms.

They offer the highest level of technical features to enable professionals to carry out their activities in complete safety.

The waistcoat boasts high performance features such as real buoyancy of 180N, a double chamber with 2 independent percussion systems and manual and automatic release.

It also has an asymmetric air chamber with an articulated collar to optimise freeboard and rollover, while providing support for the head above water.

The inflatable jacket is made from tough, flexible technical fabrics.

And it comes with the highest level of equipment:

- Integrated harness.
- Double subcutaneous.
- Integrated Solas flashlight.
- Pocket with abseil end.
- Strap for emergency beacon and accessories.
- Belt with quick-adjust buckle.
