CREVASSE RESCUE KIT PETZL

https://www.securhit.com/en/height-safety-kits/591-secours-en-crevasse-kit-complet-petzl.html

PETZL CREVASSE RESCUE KIT for hauling and self-rescue in crevasses. Equipment for the practice of glacier racing. For mountaineers, freeriders and rope workers.

Description

Crevasses, landslides, avalanches... The mountains present many risks. Mountaineers must therefore follow strict safety rules on glaciers and set off with suitable equipment. PETZL's crevasse rescue kit allows you to progress more serenely on a glacier. It includes several pieces of equipment for hauling up or ascending a rope, but also for extricating yourself after a fall into a crevasse.

- 1 MICRO TRAXION pulley
- 2 OK SCREW-LOCK carabiners
- 1 TIBLOC
- 1 PARTNER pulley
- 1 ST'ANNEAU 120 cm sling

Rope compatibility: 8 to 11 mm

A benchmark for regular glacier climbers. High quality, reliability and durability, everything is designed to ensure your safety.
