PETZL SPARE LANYARD FOR LEZARD

https://www.securhit.com/en/lanyards-and-absorbers/593-longe-de-rechange-pour-interface-d-helitreuillage-lezard-petzl.html

Adjustable spare lanyard for PETZL LEZARD. A safety device that complements the PETZL LEZARD lanyard for heli-lifting and securing at height.

Description

Heli-lift operations require the utmost caution. That's why it's vital to opt for top-of-the-range, reliable and robust equipment. PETZL's LEZARD replacement lanyard, designed for heli-lifting at height, replaces the lanyard if it has a defect.

- A lanyard with a simple adjustment for quick connection to the relay (instant ejection if the helicopter abruptly leaves its stationary position).
- An ergonomic ADJUST locking device for precise adjustment of the length of the adjustable strand.

Use of the LEZARD lanyard requires training from PETZL or an approved organization

3-year warranty.

Caractéristiques

- Weight : 250 g
- Materials : aluminium, polyamide, Dyneema, élastomère
