PETZL PROGRESS ADJUST-Y LANYARD

https://www.securhit.com/en/lanyards-and-absorbers/594-longe-double-progress-adjust-y.html

PETZL PROGRESS ADJUST-Y double adjustable progression lanyard to ensure a permanent connection in all types of progression. Equipment with adjustable strand.

Description

Climbing on a rope, moving on a handrail... Whatever the progression, safety is a must. The PETZL PROGRESS ADJUST-Y double-adjustable progression lanyard is the equipment of choice for all types of progression.

- One fixed section (65 cm) for connecting an ASCENSION rope clamp and another adjustable section (up to 95 cm), ideal for adapting the length of the lanyard when passing through splits (ascending on a rope).
- Two strands of similar length to simplify progression when moving on handrails
- Ergonomic ADJUST locking device to set the adjustable rope to the right length in no time at all.
- Connectors held in the right position by the TANGA accessory and plastic sheath, simplifying karabiner attachment
- Compatible with the openable ventral attachment point on ASTRO harnesses
- A dynamic rope lanyard
- Use with two VERTIGO TWIST-LOCK connectors

3-year warranty.
