# PETZL MINI TRAXION BLOCK PULLEY

*https://www.securhit.com/en/pulleys-and-ascenders/595-poulie-bloqueur-mini-traxion-petzl.html*

PETZL MINI TRAXION block pulley for intermediate loads. Compact, captive, high-performance equipment that's easy to handle.

## Description

Working at height requires reliable, durable personal protective equipment (PPE). PETZL's MINI TRAXION pulley block is specially designed for the installation of hoisting systems.

Easy handling thanks to :

- triple-action opening of the mobile flange, which is easy to use even when wearing gloves
- The rope can be inserted when the pulley is already attached to the anchor.
- A visual indicator if the mobile flange is not locked.
- Well-designed rope passage to protect the rope

Versatility:

- A spiked trigger with drain slot for all-weather use of the blocking pulley
- Trigger lock in raised position for single pulley operation
- Possibility of installing a remote control cord via the hole in the trigger

Ideal for hoisting intermediate loads, with excellent performance thanks to an intermediate-diameter aluminum sheave on sealed ball bearings.

Rope diameter: 7 to 11 mm
Sheave diameter: 32 mm
Breaking load - pulley: 10 kN x 2 = 20 kN
Breaking load - blocker: 4 kN
Efficiency: 93%.

## Caractéristiques

- Weight : 150 g
- Materials : Aluminium, acier inoxydable, polyamide
- Certifications : CE EN 567, CE EN 12278, CE EN 12841 type B, UKCA, NFPA 2500 Technical use Pulley and rope grab
