PETZL PRO TRAXION BLOCK PULLEY

https://www.securhit.com/en/pulleys-and-ascenders/596-poulie-bloqueur-pro-traxion.html

High-performance PETZL PRO TRAXION block pulley with swivel for easy handling. Designed for the installation of heavy-load hoisting systems.

Description

Working at height requires personal protective equipment (PPE) to ensure the safety of professionals. PETZL's PRO TRAXION pulley block is specially designed for installing heavy-load hoisting systems.

Easy handling with :

- triple-action opening of the mobile flange, which is easy to use even when wearing gloves
- The rope can be inserted when the pulley is already attached to the anchor.
- A visual indicator if the mobile flange is not locked.
- Well-designed rope routing to prevent wear and tear

Versatility:

- A swivel and an attachment point to use carabiners, ropes and webbing and make manoeuvring easier.
- Pinned trigger with escape slot for all-weather operation of the block-pulley
- Trigger lock in up position for single pulley operation
- Additional attachment point for successful hauling
- Installation of a remote control cord via the hole in the trigger

Equipment designed for high performance thanks to large-diameter aluminum sheaves on sealed ball bearings.

Rope diameter: 8 to 13 mm
Sheave diameter: 38 mm
Breaking load - pulley: 11.5 kN x 2 = 23 Kn
Breaking load - blocker: 4 kN

Efficiency: 95%.

Caractéristiques

- Weight : 295 g
- Materials : Aluminium, acier inoxydable, polyamide
- Certifications : CE EN 567, CE EN 12278, CE EN 12841 type B, UKCA, NFPA 2500 Technical use Pulley and rope grab
