Reference rope for working at height

Description

The 10.5 mm diameter industrial semi-static rope is the benchmark for lightness and strength. Ideal for working at height.

What's more, it has a special sheath construction that makes it easy to handle and gives it record resistance per gram.

Here are a few technical specifications on its strength:
- Strength with figure-of-eight knot: 19 kN
- Strength with sewn termination: 24 kN

Caractéristiques

- Breaking load : 30 kN
- Poids au mètre : 65 g
- Force de choc (facteur 0.3) : 5.4 kN
