

CARABINER D PRO LOCK

https://www.securhit.com/en/carabiners-and-connectors/598-774-mousqueton-d-pro-lock.html#/721-verrouillage_mousqueton_d_pro_lock-verrouillage_a_vis

Heavy-duty steel carabiner for intensive use

Description

The D PRO LOCK steel carabiner is extremely hard-wearing and suitable for the most intensive use. Its wide opening makes it particularly suitable for passing knots.

It has a keylock to prevent accidental snagging when manoeuvring.

Locking options:

- Locking by screw ferrule
- Locking by automatic ferrule that requires two actions to open: turn and press.
- Automatic ferrule locking requires three actions to open: slide, turn and press.

Caractéristiques

- Weight : 250 à 280 g
- Charge de rupture sur l'axe majeur : 50 kN
- Charge de rupture sur l'axe mineur : 15 kN
