

PETZL SITTA XS HARNESS

<https://www.securhit.com/en/harnesses-and-belts/603-harnais-petzl-sitta-xs.html>

Ultra-light PETZL SITTA XS harness for climbing and mountaineering. Practical, comfortable and very compact, for freedom of movement and easy storage.

Description

A high-performance harness for mountaineering and climbing that combines freedom of movement with great durability? That's the aim of PETZL's SITTA harness. A harness that perfectly combines lightness, mobility and comfort, while ensuring maximum safety. Innovation for professional climbers!

- Designed with WIREFRAME technology: Spectra® wires in the waistband and thighs to distribute the load evenly.
- Compact size
- Easy thigh adjustment with ultra-flexible thigh-belt connection
- Forged aluminum DOUBLEBACK HD buckle at waistband for easy adjustment
- Two large, rigid front gear loops with movable divider
- Two semi-rigid gear loops at the rear (for carrying backpacks)
- One rigid gear loop behind the harness
- Two loops for CARITOOL tool holders
- Tie-down points reinforced with HDPE
- High wear resistance thanks to glued construction of waistband and thigh loops
- Abrasion-resistant outer fabric and breathable inner fabric.

SITTA harness color: orange.
