PETZL ASAP'SORBER AXESS LANYARD

https://www.securhit.com/en/lanyards-and-absorbers/605-longe-petzl-asap-sorber-axess-40-cm.html

PETZL ASAP'SORBER AXESS energy absorber for connection to the ASAP or ASAP LOCK mobile fall arrester. Available in two different lengths, for a maximum load of 250 kg.

Description

Fall arrest systems are essential if you're working in a high-risk environment. Professionals working at height need to be equipped with ultra-reliable components. The PETZL ASAP'S SORBER AXESS energy absorber, together with the ASAP or ASAP LOCK mobile fall arresters, ensures maximum safety on construction sites.

- The ability to move the rope away from the work site to avoid any inconvenience and protect the rope from elements that could damage it.
- Excellent energy absorption in the event of a fall, via the tearing of the energy absorber strap.
- Excellent protection of the absorber with the ultra-strong fabric pouch and its opening at the ends
- STRINGed ends to limit strap abrasion and keep connector in position

User weight: between 50 and 130 kg, up to 250 kg for two-person rescue.
