PETZL HALF-ROUND LINK 10 MM

https://www.securhit.com/en/carabiners-and-connectors/614-maillon-demi-rond-alliage-a-vis-10-mm-petzl.html

PETZL half-round quick link with 10 mm opening, in aluminum alloy, lightweight and easy to carry. Ideal for closing harnesses with two attachment points.

Description

Small accessories often make all the difference to safety when working at height. PETZL's half-round quick link, with its 10 mm opening, can be used to close harnesses with two attachment points.

Thanks to its aluminum design, this device is very light and easy to transport. It can easily support 3-axis loads. This makes it ideal for closing caving harnesses, torso harnesses and full-body harnesses.

Large axis strength: 25 kN.
Small axis resistance: 10 kN.
Opening: 10 mm.

Caractéristiques

- Material : Aluminium
- Certifications : CE EN 362 type Q
