

PETZL JAG PULLEY

<https://www.securhit.com/en/pulleys-and-ascenders/618-poule-double-haut-rendement-petzl-jag.html>

High-performance PETZL JAG double pulley for use with the JAG TRAXION double block pulley for 4:1 hauling. Equipment with waterproof ball-bearing sheaves.

Description

Looking for high performance? PETZL's JAG double pulley offers maximum performance when combined with the JAG TRAXION double locking pulley. Together, they enable efficient 4:1 hauling.

With its sealed ball-bearing sheaves, the JAG pulley guarantees excellent efficiency (91%). Suitable for rope diameters from 8 to 11 mm.

Sheave diameter: 25 mm.

Maximum working load: $2 \times 1.5 \text{ kN} \times 2 = 6 \text{ kN}$.

Breaking load: $2 \times 4 \text{ kN} \times 2 = 16 \text{ kN}$.

Caractéristiques

- Weight : 120 g
- Materials : aluminium, polyamide
- Certifications : CE EN 12278, UKCA, NFPA 2500 Technical Use
