PETZL PROTEC PLUS ROPE PROTECTION

https://www.securhit.com/en/ropes-and-cords/627-protection-de-corde-petzl-protec-plus.html

High-strength PETZL PROTEC PLUS soft protection for fixed ropes. An accessory designed to protect a fixed rope from highly abrasive or hot areas of friction.

Description

Protecting yourself from the risk of falling when working at height is essential. But you also need to protect your equipment from abrasion and heat. PETZL's PROTEC PLUS aramid fixed rope protection combines long-term strength, ease of use and versatility.

- An accessory up to 3 times more resistant than classic PROTEC protection
- Protection against high heat, for up to 5 minutes at 200°C, and against flames, for up to 10 seconds at 650°C.
- Magnets to open and close the flexible protection in a jiffy
- Easy installation on the rope, thanks to the easy-to-hold clamp
- Two-way use (clamp up or down)
- Compatible with various rope diameters
- Can protect a mooring strap like the CONNEXION model

Size of PETZL PROTEC PLUS soft protection: 56 x 5 x 2.5 cm.

Caractéristiques

- Weight : 135 g
