PETZL BOREO CAVING WHITE caving helmet. A comfortable helmet with reinforced protection and plates for attaching the DUO headlamp.

Description

Caving requires maximum safety equipment. Especially for the head! The BOREO CAVING WHITE helmet from PETZL is ideal for your favorite sport. Its robustness and practicality mean it can withstand any impact.

- A well-covered shape with a lowering at the back of the head for maximum protection (TOP AND SIDE PROTECTION label from PETZL).
- A dual design: a highly rigid ABS shell and two foam inserts (one EPP, the other EPS) to reinforce resistance.
- A flexible headband that follows the shape of the head perfectly
- Fully adjustable chinstrap and side straps
- Front and back plates for attaching a DUO RL, DUO S or DUO Z2 headlamp (not supplied)
- Closed-cell comfort foams (no water or perspiration absorption)
