PETZL BOREO HELMET

https://www.securhit.com/en/helmets-and-accessories/635-816-casque-petzl-boreo.html#/732-modele_a042va-blanc_s_m

Ultra-strong PETZL BOREO helmet, ideal for climbing, via ferrata, canyoning or caving. Versatile, comfortable and ventilated.

Description

Activities involving the risk of falling require high-quality equipment to ensure your safety. PETZL's BOREO helmet is specially designed for climbing, canyoning, via ferrata and caving.

- High protection thanks to a full-coverage design, with a lowered back section (TOP AND SIDE PROTECTION label from Petzl).
- Soft foam interior and headband for maximum comfort
- Ultra-rigid, durable ABS shell and foam inserts for added strength
- Good air circulation thanks to ventilation holes
- Fully adjustable chinstrap and side straps
- Lightweight equipment (330 grams for size M/L)
- Easy to store and transport, thanks to a headband that retracts into the interior
- A headlamp can be added using the hooks at the front of the helmet and the elastic band at the back.

The PETZL BOREO helmet is available in 5 colors: white, blue, gray, orange and red.
