PETZL METEORA helmet for climbing, mountaineering and ski touring. A lightweight, compact and comfortable safety helmet for women.

Description

Some activities require special equipment to ensure safety on every outing. PETZL's METEORA helmet enables women to protect their heads during climbing, mountaineering and ski touring sessions. This helmet is CE-certified for ski touring.

- Very comfortable to wear, thanks to its light weight (225 g) and In-Mold technology (a thin, impact-resistant polycarbonate outer shell bonded to EPS foam).
- Reinforcement around ventilation holes and grooves
- A semi-rigid OMEGA headband with a marked indentation, ideal for women who wear a ponytail
- A high-coverage shape to protect the head from impacts on the sides, front and back
- Designed according to Petzl's TOP AND SIDE PROTECTION label
- Designed to fit over a ski mask
- Easy adjustment, with or without gloves
- Front hooks and back elastic band for headlamp attachment

Warning: the PETZL METEORA helmet does not meet the requirements of the EN 1077 helmet standard for downhill skiers.

Head size: 52-58 cm.
Weight: 225 g.
