PETZL SUPERAVENTI caving harness is robust, durable and lightweight. A practical piece of equipment with four gear loops, so you can enjoy your outings and progress with ease.

Description

Caving requires top-quality equipment. That's why PETZL's SUPERAVENTI caving harness is designed to make your outings easier. Sturdy, practical and lightweight, you won't want to do without it!

Long-lasting durability

- High abrasion resistance thanks to thermoplastic polyurethane (TPU) reinforcements on the thighs
- Gear loops and attachment points made of high-density polyethylene (HDPE), appreciated for its high strength-to-density ratio
- Easily adjustable straps thanks to polyester construction
- Rear buckle with wear protection

Practical equipment

- Low position of attachment points
- Two side gear loops
- Wide belt and thigh adjustment range to suit all body shapes
- Attachments supplied to lock thigh adjustment in place

The PETZL SUPERAVENTI harness is available in two color-coded sizes (size 1: yellow stitching, size 2: black stitching).

Model 1

Waist: 60-95 cm, thigh: 42-62 cm, weight: 410 g

Model 2

Waist: 90-105 cm, thigh: 52-72 cm, weight: 450 g
