

PETZL ALTITUDE HARNESS

https://www.securhit.com/en/harnesses-and-belts/644-846-harnais-petzl-altitude.html#/762-taille_c019ba-s_m

Lightweight, compact PETZL ALTITUDE harness with simple architecture for mountaineering and ski touring. Easy to put on, with storage compartments.

Description

Some activities require special equipment to simplify everyday life. PETZL's ALTITUDE harness is specially designed for mountaineering and ski touring.

- Can be put on with feet on the ground
- Easy handling of the DOUBLEBACK LIGHT buckle and tightening strap
- Light weight (150 g for the S/M model)
- Compact when stored in its pouch
- WIREFRAME technology: Spectra® wires in the waistband and thighs for excellent load distribution, without foam
- Streamlined design
- Single roping point
- Two gear loops
- Siliconized inner thigh loops to hold ice screws
