Lightweight, comfortable PETZL HIRUNDOS harness. Ideal for performance climbing, whether indoors or on cliffs. 4 sizes and 4 different colors.

Description

Indoor climbing and cliff climbing require reliable, comfortable equipment. PETZL's HIRUNDOS harness is perfectly suited to athletic, performance-oriented climbers. This equipment combines a number of advantages, including lightness, freedom of movement and suspension comfort.

- A belt that combines finesse and lightness, with flexible, elasticated thigh loops for excellent support.
- FUSEFRAME technology: fine thermoformed foam and split inner straps for added comfort
- Breathable inner fabric

The harness can be used for both climbing and mountaineering. It has two semi-rigid front gear loops, two flexible rear gear loops and an accessory ring also located behind the harness. And other practical features:

- CARITOOL EVO compatibility for ice screws
- A DOUBLEBACK HD buckle at waist level for easy belt adjustment
- Heavy-duty outer fabric and DOUBLEBACK HD buckle for long-lasting durability
- Reinforced HDPE tie-in points to limit abrasion
- Adjustable, removable elastics behind the thighs
