PETZL WEBBING RING

https://www.securhit.com/en/anchors-and-tie-back-systems/657-914-sangle-anneau-petzl.html#/830-modele_c40-120_cm_noir

PETZL STRAP RING for all vertical activities, available in four different lengths. Color-coded equipment to distinguish lengths.

Description

The webbing ring is part of the fall protection equipment. For maintenance, servicing or cleaning operations on a structure, this equipment ensures the safety of workers at height. The PETZL webbing ring is ideal for creating a reliable anchorage point.

- Four lengths: 60, 80, 120 and 150 cm
- Color-coded for quick identification of different lengths
- Ultra-strong polyester design

Webbing rings are available in yellow, blue, green and red. A black version is also available.
