

PETZL VERSO BELAY DEVICE

https://www.securhit.com/en/belay-and-descenders/659-923-assureur-petzl-verso.html#/839-couleur_d019aa-gris

Compact, lightweight PETZL VERSO belay device for use with one or two strands of rope. Ideal for belaying or safe abseiling.

Description

Abseiling requires ultra-reliable equipment to ensure your safety. PETZL's VERSO ascender is specially designed to fit all rope diameters. Easy to use and durable, it fits perfectly into any safety equipment package.

- Classic use with one hand permanently positioned on the braking side
- V-shaped, grooved braking grooves for better braking control
- Smooth rope sliding in the descender
- A dual purpose: belaying and abseiling
- Compact, lightweight equipment (55 g)
- Rounded rope passage to prevent long-term wear and tear

The VERSO descender is compatible with various dynamic ropes:

- Single from 8.5 to 11 mm
- Double from 7.1 to 9.2 mm
- Twin from 6.9 to 9.2 mm

Available in gray or green.
