

PVC SIGNALLING CONE 75 CM / 2 STRIPS 3M CL II

<https://www.securhit.com/en/signalisation-balisage/66-cone-de-signalisation-pvc-75-cm-2-bandes-3m-cl-ii.html> REVO32 R2 signalling cone

Description

Signal cone (k5a)
The lightest in the 750 mm range, easy to handle
New P.V.C. body, recycled P.V.C. base
One-piece type, inseparable body and base
Throat and grip on top for easy handling
2 x 15cm 3M 3340 strips (High Prismatic Intensity), 70% more effective
Even in rainy weather, thanks to its 3M 3340 strip, optimal visibility
Complies with the NF EN 13422 + A1 (2009) standard

The cone can be used on small and medium-sized construction sites, on the road, day and night.
