

PETZL SPIN L1 PULLEY

https://www.securhit.com/en/pulleys-and-ascenders/674-970-poulie-petzl-spin-l1.html#/886-couleur_p001ba-jaune

PETZL SPIN L1 high-efficiency single pulley with swivel. Ideal for easy installation of hauling systems, zip lines or load detour systems.

Description

PETZL's SPIN L1 single pulley is the ideal solution for making rope-reeling, zip-line and load-deflection systems as easy to use as possible. It provides an extra degree of safety when working at height, in rescue operations or when pruning.

- Easy, triple-action opening of the mobile flange
- The rope can be installed while maintaining the device's connection to the anchor.
- A red light indicates that the mobile flange is not locked.
- Special flange design preserves rope passage
- Large-diameter sheave on sealed ball bearings for high efficiency
- Easy sheave guiding under load thanks to the swivel (which holds up to three carabiners)

Rope diameter from 7 to 13 mm.

Sheave diameter: 38 mm.

Breaking load: 36 Kn.

Efficiency: 95%.

Caractéristiques

- Weight : 290 g
- Materials : Aluminium, acier inoxydable, polyamide
- Certifications : CE EN 12278, NFPA 2500 Pulley General Use, UIAA, UKCA, XF 494 : FZL-H-T9.5/13
