PETZL HEART INSERTS (SET OF 20)

https://www.securhit.com/en/anchors-and-tie-back-systems/680-984-plaquettes-cur-petzl-lot-de-20.html#/900-modele_p36a-12_mm_acier

PETZL C□UR inserts in standard or stainless steel, depending on model. Strong, durable equipment designed for easy clipping. Pack of 20.

Description

Depending on the environment, it's important to use the right accessories. PETZL's C□UR inserts offer numerous advantages for work at height, whatever the environment.

- Anti-rotation system
- Easy carabiner attachment thanks to ergonomic design and wide connection hole (up to two carabiners can be attached at the same time).
- A connection hole with rounded edges and a high material thickness to prevent connector wear.

Models P36AA10 and P36AA12: in steel, for low-corrosion environments.
Models P36AS10 and P36AS12: in 316L stainless steel, for excellent corrosion resistance in traditional outdoor environments.
Model P36AH12: in high-corrosion-resistant HCR 904 stainless steel, ideal for corrosive environments.

For 10 to 12 mm diameter studs, depending on model.
Weight: between 60 and 65 grams.
